

SEGA SCHOLARSHIP PROGRAM

A GREAT way to MAKE A DIFFERENCE!

Supporting a scholarship for a student at SEGA is a meaningful way to support our important work and connect with and follow the progress of one SEGA student. It gives you a first-hand experience of seeing how your contribution to the school is making a difference, offers a cultural exchange and helps girls improve their English.

EDUCATION = A BETTER LIFE.

The most effective way to assist vulnerable and disadvantaged girls in Tanzania is to provide a quality education. SEGA Students graduate with a high school diploma and are empowered to make changes in their own lives and also in their families and communities.

Research shows that girls with a secondary degree have:

- Higher wages and better jobs
- Better health, nutrition, sanitation, immunization and education levels for their own children
- Delayed marriage and lower birth rates
